PYRAMIDS

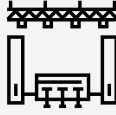

JACQUARD SINGLE RIB NONWOVEN

Distinctive single-rib jacquard surface providing directional texture and dimensional character. Engineered for exhibitions, events, and commercial flooring applications. The rib structure adds visual depth while maintaining easy rollout and installation. Latex backing ensures stable adhesion to the subfloor. Flexible sizing available up to 4m width and custom lengths.

FIBER	100% PES
SURFACE	ACQUARD SINGLE RIB
BACKING	LATEX
FACE WEIGHT	350-650 GSM
BACKING WEIGHT	LATEX 100-250G
TOTAL WEIGHT	450 - 900 GSM

NANO PYRAMIDS

JACQUARD SINGLE RIB - LIGHTWEIGHT VERSION

The lightweight edition of the Pyramids range – engineered for events and exhibitions where logistics and handling speed are a priority. Lower pile weight makes this the preferred specification for large-scale temporary installations. Retains the single-rib jacquard texture at reduced weight and cost. Latex backed for floor stability.

FIBER	100% PES
SURFACE	ACQUARD SINGLE RIB
BACKING	LATEX
FACE WEIGHT	225-350 GSM
BACKING WEIGHT	LATEX 100-250G

SPHINX

JACQUARD DOUBLE RIB NONWOVEN

The Sphinx features a pronounced double-rib jacquard construction – two rib channels per repeat creating a bolder, more structured surface texture. Ideal where a stronger visual statement is required: premium event spaces, branded exhibition stands, hospitality entrances.

FIBER	100% PES

CALIFORNIA

EXHIBITION CARPET - PLAIN SURFACE

The California is MATEX's widest exhibition carpet – available up to 4m roll width, making it the preferred specification for large exhibition halls requiring seamless installation across wide spans. Plain smooth surface without backing offers maximum flexibility: easy to cut, lay, and handle on site. The lightest, most cost-effective specification for temporary event flooring.

ALMAZ

EXHIBITION CARPET - LATEX BACKED

The Almaz bridges temporary exhibition use and semi-permanent commercial installation. Plain face with 100gsm latex backing provides enhanced stability and floor adhesion versus the unbacked California – suitable for higher-footfall event applications, or installations where the carpet will be laid for extended periods.

FIBER	100% PES
SURFACE	PLAIN
BACKING	LATEX
FACE WEIGHT	225-500 GSM
BACKING WEIGHT	LATEX 100-250G
